MINE RESCUE CAR "NO. 3"

Will be in Earlington From February 1st to 14th—Free Lectures Will be Given

MOVING PICTURES TO BE SHOWN

Washington, January 20.—Mine Rescue Car No. 3, of the United States Bureau of Mines, in charge of Foreman Miner G. T. Powell and a crew of trained men, will reach Nortonville, Ky., on Jan. 23, on its itinerary thru Kentucky. The car will be on exhibition every day from 9:00 a.m. to 5:00 p.m. until Jan. 31, and free lectures will be given miners on safe methods of mining, the use of safety lamps and rescue apparatus, and mine gases. On February 1, the car will come to this city, to remain until February 14, after which date it is to proceed to Madisonville, Ky., to remain until Feb. 28. From March 1, to March 7, inclusive, the car will be at Morgantown, Ky.

This mine-rescue car is one of eight now in use by the Bureau of Mines for training miners in first aid and rescue methods and the use of oxygen-breathing apparatus. Each car has a crew that includes two experienced miners, a mining engineer in charge, and a mine surgeon, and is equipped with the latest rescue and first aid apparatus and supplies. At a moment's notice the car is ready to proceed to the scene of a disaster, where the bureau men place themselves under the direction of the state mining inspectors and mine officials to do everything possible to assist or save miners who may have been injured or entombed.

The saving of human life and lessening the sufferings of injured miners are the central features of the bureau's work. Miners are shown how to use rescue apparatus, and how to take care of an injured comrade. The lectures are illustrated by lantern slides and moving pictures which show good and bad methods of mining and how many accidents are easily prevented. These lectures are given in the car when a suitable meeting place cannot be procured elsewhere, but lantern slides and moving pictures cannot be shown in the car.

Each car carries oxygen-breathing apparatus, a supply of oxygen in cylinders, safety lamps, a field telephone with 2,000 feet of wire, a collapsible steel mine cage, an apparatus for reviving miners who have been gassed, and the charts, splints and bandages for demonstrating first-aid methods. Some of the training with rescue apparatus will be inside the mines, also in smoke and fumes, so that wearers will understand the value of the apparatus and how to use it. A miner wearing the apparatus can enter a mine immediately after an explosion, and work in smoke and black damp for two hours.

Many thousands of miners have been trained in the use of this rescue apparatus at the Bureau of Mines cars and stations. It is hoped that in the near future every miner in this country will have a working knowledge of the apparatus, and that every mine will have equipment ready for use in case of emergency. Many miners have been saved after explosions by rescue parties wear-

Bad Cold Quickly Broken Up
Mrs. Martha Wilcox, Gowanda, N. Y., writes: "I first used Chamberlain's Cough Remedy about eight years ago. At that time I had a hard cold and coughed most of the time. It proved to be just what I needed. It broke up the cold in a few days, and the cough entirely disappeared. I have told many of my friends of the good I received through using this medicine, and all who have used it speak of it in the highest terms." Obtainable everywhere.

"POSSUM HUNTERS" GET FIVE YEAR Sentences in Muhlenberg Circuit Court at Greenville

The Muhlenberg Circuit Court adjourned Friday until Monday, having caught up with the docket. Before court adjourned, however, sentence was passed upon O. R. Knight, Edgar Knight and George Stroman, convicted of banding and confederating together, each being sentenced to serve not less than four years and 300 days and not more than five years. Each when sentenced pre-tested his innocence and Stroman gave as an additional reason as to why he should not be sentenced that he had a wife and two small children who needed his assistance. The court remarked that none of the reasons given was valid and sentence was pronounced.

The Gist of It
"Last December I had a very severe cold and was nearly down sick in bed. MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED

If cross, feverish, sick, bilious, clean little liver and bowels

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach ache or diarrhoea. Listen, Mother! See if tongue is coated; then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels. Ask your druggist for a 50c bottle of "California Syrup of Figs" which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

CHARGES OF WASTE OF MINERS' MONEY

Bitter Debate Over Proposal to Investigate Alleged Extravagance

Indianapolis, Ind., Jan. 20.—A bitter debate in which personalities figured to a large extent was precipitated in the convention of the United Mine Workers yesterday over a proposition to have a committee appointed to investigate alleged extravagance in the financial affairs of the organization. Charges were made that there was a waste of money, that some of the union's salaried employees padded expense accounts and were inefficient. Counter charges were made that the investigators of the proposed investigation had only ulterior motives and were actuated by a desire to bring discredit to the organization and its leader.

SUIT BROUGHT FOR \$10,000

Against Marshall Keech of Dawson Springs

K. H. Keech, appointed chief of Police of Dawson Springs less than one month ago, Saturday was made the defendant in two damage suits filed by E. B. Rodgers and Hugh French, both of Dawson Springs, in the sum of \$10,000. The suits were filed by Yost & Franklin.

Rodgers is suing for \$5,000 because the marshal insisted on searching his suit case, and French, it appears, was forced to assist in making an arrest, claiming the marshal drew his revolver on him and threatened him, and he is humiliated to the extent of \$5,000.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

He asked that the government issue modern rifles and equipment to replace the obsolete weapons now loaned and also tents and equipment for field training.

In as much as there is never a day passes that you can't see any number of little boys around on the streets puffing at an old cigarette apparently as though they believed it smart and healthful and never a restraining hand raised, and knowing someone is violating the law, and also injuring the health of the young boys, we deem it wise just here to quote the law on this subject which states clearly the duty of any and all PEACE officers. The law in full follows:

It is unlawful for any person, firm or corporation, to sell, give or furnish to any person under 18 years of age, cigarettes or cigarette papers. It is also unlawful for any person under 18 years of age to smoke cigarettes, or to have about his person cigarettes or cigarette papers. The punishment for the latter offense is a fine not exceeding \$5.00. The person smoking or having in his possession cigarettes or papers may escape punishment by disclosing the name of the person or corporation from whom same was procured.

IT IS MADE THE DUTY OF CONSTABLES, POLICEMEN, SHERIFFS AND MARSHALS TO ARREST ANY PERSON UNDER 18 YEARS OF AGE WHO MAY BE FOUND SMOKING CIGARETTES OR HAVING IN HIS POSSESSION CIGARETTES OR MATERIALS FOR MAKING CIGARETTES.

Any person of ANY age who smokes cigarettes in or about a school building during school hours is liable to a fine of \$5.00

For the sale of cigarettes or papers to any person under 18 years of age, a person or a firm is liable to a fine of not less than \$10.00, nor more than \$20.00. And for each subsequent offense a fine of not less than \$25.00 nor more than \$300.00.

The Scrap Book

Getting His Hair Cut.
Mr. Cleverleigh entered his club a few mornings ago, his chin and cheeks showing plainly that he was freshly emancipated from the hands of the barber.

"Been having a shave, old man?" asked Dubbins lastly.
"Yes, and had my hair cut, too," was the reply.
"Always have my hair cut when I have a shave."

"And how often do you get shaved?" was the languid inquiry from his friend.
"Every morning," answered Cleverleigh.
"And have your hair cut, too, every day?" said the other.
"Yes."
"Don't you find it rather expensive?"
"No; it only costs 15 cents."
"What! Only 15 cents for a shave and hair cutting?"
"That's all. Barber couldn't shave me without cutting my hair, you know."
And it took poor Dubbins even and a half minutes by the club clock to see why.

Tears.
If every wish were granted,
If every hope came true,
If every need we planted
In a lovely blossom grew,
If every day were sunny
And every one were wise,
There'd be no sweet in honey,
There'd be no joys to prize.

If we knew that tomorrow
Would be just like today,
With not one touch of sorrow,
No care to spoil our play,
No doubt and no misgiving,
No heartaches and no fears,
Then vain were all our living,
We'd waste the joy of hours.

We'd sigh for sacred sorrow,
We'd long to feel the rain,
And we should yearn to borrow
The blessedness of pain.
For more than all the pleasure
That came and quickly fled
A down the years we treasure
The tears that we have shed.
—Edgar A. Guest.

Edison Congratulates St. Paul Railroad

Thomas A. Edison, the electricity wizard, sent president A. J. Earling, of the Chicago, Milwaukee & St. Paul Railway a telegram commending him for the electrification of a portion of the system which he heads. The telegram follows:

"Your work of electrification of the 440 miles of the Rocky Mountain division of the St. Paul Railway is one more of the great achievements permitted by the wedding of science and business. I congratulate you and admire the nerve of the railroads financial backers."

"I am more than pleased with Mr. Edison's message," said President Earling. "It is very gratifying to receive such a telegram from him. The official test, made at Jannny, Mont., a Month ago, was an unqualified success. Where formerly three steam locomotives were necessary to pull 2,000 tons up steep grades in the mountains, it takes only two electric motors to pull a load of 3,000 tons. The electric motors make twice the speed. It is without question the greatest and most ambitious electrification project in the history of all railroading."

One Experience Convinced Me of its Value

"One of our salesmen demonstrated the value of the Long Distance Telephone to us. He was at Huntsville, Ala., and upon his own responsibility put in

Long Distance calls for fifteen merchants within a radius of several hundred miles.

"In less than one hour he had sold 2100 barrels of flour at a total cost to us of less than six dollars.

"Since then we have applied the Long Distance Bell Telephone to every feature of our business with most profitable results. The service is fine, the rates are reasonable and there is more satisfaction in one Long Distance Telephone talk than in half a dozen letters."

FOR KENTUCKY WOMEN WHO ARE TIRED OUT, NERVOUS, SLEEPLESS, OR RACKED WITH PAIN.

Louisville, Ky.—"When I was in need of a woman's medicine I saw Dr. Pierce's Favorite Prescription advertised. I was nervous, tired out, and it seemed as if I was unable to meet my work. After I began using the 'Prescription' I became better and so much stronger. I used five bottles of this remedy and was entirely cured. I have never been bothered since. I am glad to recommend it because I desire to help others similarly placed."—Mrs. MARY SCHMIDT, 2221 Bank St.

Dr. Pierce's Favorite Prescription is a true friend to women in times of trial and at times of pain when the organs are not performing their functions. Dollars Waiting For You

Mr. Business Man:

All indications point to a vast improvement in business conditions in this community during the present year. Money will be plentiful, purse strings will be loosened, and prosperity will walk abroad.

But the extent of that prosperity will depend in large degree upon the attitude of the local merchant or other business man. It will depend upon his willingness to meet the liberality of the people in an equal liberality in his methods of bidding for their trade.

In other words, the business man who advertises his goods and meets the wishes of the people in their demands for advance information relative to the articles they seek, is the one who will reap the principal benefits from the prosperity that is expected to sweep over the land.

You, as a business man of this community, have a great opportunity before you. With the return of confidence in the stability of the country the people will unquestionably be liberal in their expenditures, and vast sums of money will be spent where heretofore rigid economy has been the order of the day.

It is the part of wisdom for the local business man to prepare at once to meet these changed conditions by placing himself prominently and advantageously before the people of this community, for assuredly he will be called upon to compete with other firms in other places who are not less energetic or far seeing than himself.

We strongly urge upon you the vital necessity for mapping out a judicious campaign of advertising in this paper during the coming year. The cost is small, and there can be no doubt whatever that the advantages will be great. Merchants in other places will be advertising heavily and in various ways in an effort to secure the trade of this community, and one of the least considerate of these will be the mail order man.

This suggestion means much to you in the matter of profits during the coming year, and we ask you to give it your serious consideration during the next few days. Then we will speak to you face to face.

Very Truly Yours

THE EARLINGTON BEE
